## 1999

- Jens Lund, *Statistical inference and perfect simulation for point processes observed with noise*, Ph.D. thesis, Department of Mathematics and physics, The Royal Veterinary and Agricultural University, December 1999.
- Jens Lund, Elke Thönnnes, *Perfect simulation of point patterns from noisy observations*, December 10, 1999, Department of Mathematics and Physics, The Royal Veterinary and Agricultural University, manuscript. The revised version *Perfect simulation of point processes given noisy observations*, February 16, 2000, is submitted. Revised version February 4th, 2001, revised version 2 May 4th, 2002, revised version 3 January 14th, 2003 accepted for publication in Computational Statistics issue 02/2004 to appear 15 May 2004.
- Jens Lund, Antti Penttinen, Mats Rudemo, *Bayesian analysis of spatial point patterns from noisy observations*, October 27, 1999, Department of Mathematics and Physics, The Royal Veterinary and Agricultural University, submitted but not revised.
- Fin Biering-Sørensen, Jens Lund, Ola J. Høydalsmo, Erik M. Darre, Allan Deis, Peter Kryger and Cecilia Florvall Müller, *Risk indicators of disability pension; A 15 year follow-up study*, Danish Medical Bulletin vol. 46 (1999), no. 3 (June), pages 258–262.
- Erik M. Darre, Fin Biering-Sørensen, Allan Deis, Ola J. Høydalsmo, Peter Kryger, Jens Lund, Tina Monrad, Cecilia Florvall Müller, *Rygbesvær under aftjening af værnepligt - betydning for senere rygproblemer. En 12 års follow-up undersøgelse.*, Ugeskrift for læger vol. 161 (1999), no. 13 (March 29), pages 1926–1930.

## 1998

- Jens Lund, Mats Rudemo, *Models for point processes observed with noise*, November 4, 1998, Report 10, Department of Mathematics and Physics, The Royal Veterinary and Agricultural University, revised version September 8, 1999, revised version November 1, 1999 accepted for publication in Biometrika.
- Jens Lund, *Survival of the Fattest? Self-thinning among Trees*, April 29, 1998, Report 3, Department of Mathematics and Physics, The Royal Veterinary and Agricultural University, course report from a PhD course in forest biometrics.
- Jens Lund, *Sampling Bias in Survival Analysis --- How to Use the Lexis Diagram*, April 5, 1998, Preprint no. 4, 1998, Department of Theoretical Statistics, University of Copenhagen, based on my master's thesis. (A shorter version submitted, dated April 15, 1998; a revised version, dated June 7, 1999, second revised version, dated November 19, 1999. Accepted for publication in Scandinavian Journal of Statistics.)

## 1996

- Jens Lund, *Analyse af ventetidsaksen i en fornyelsesproces og sampling i en poissonprocesmodel for Lexis diagrammet*, November 1996, in Danish, Master's thesis, University of Copenhagen. A list of corrections is also available.
